

ALOUETTE™

L I G H T L O U V E R S

HunterDouglas
window fashions

Fully open, the wide louvers soften the glare but also let in the view outside.

All window coverings trace their origins to one of three basic forms: shutters, shades, or blinds. Now Hunter Douglas introduces Alouette™ Light Louvers, a new achievement that combines the defining elements of all three.

Like shutters, Alouette Light Louvers make an impressive architectural statement. Like shades, they are soft, exquisitely lightweight, yet durable.

And like blinds, the louvers control light and offer privacy. There the similarities stop.

The uniquely shaped, elliptical louvers are $2\frac{3}{4}$ " wide. And when fully opened, they leave your view virtually unobstructed.

Even the headrail pivots and disappears, completing the illusion of invisibility.

Sunlight is filtered through the layers of translucent fabric. The soft light cascades over the louvers, bathing the room in a glow that changes from hour to hour.

And you can rest assured that they function reliably and clean effortlessly.

Alouette™ Light Louvers. As light, as airy, as beautiful as their name.

Partially closed, light flows in and cascades over the louvers.

A closer look at Alouette™

UV blocking	Yes, 99% when louvers are closed
Energy efficiency	High
Lifetime warranty	Yes

Decisions, decisions. Alouette Light Louvers lets you select from one of our three pattern choices: Suave, Linen or Plume. Suave is a classic solid, as smooth and sophisticated as its name. Linen is just that: a timeless linen-look. And Plume has a subtle print with the look of hand-sponging. Then, choose from Clair, our translucent louver, or Clair de Lune™, our room-darkening version. All our patterns are available in both Clair and Clair de Lune.

When closed, the louvers keep unwanted sunlight from seeping through.

At Hunter Douglas, we stand behind our products. Each comes with a lifetime limited warranty, and is designed with safety in mind.
