

MODERN PRECIOUS METALS™
ALUMINUM BLINDS

ALUMINUM BLINDS
REFINED.

HunterDouglas
window fashions

Modern Precious Metals™ from Hunter Douglas will help you make an impressive fashion statement in any room, with unsurpassed durability and style to match. Our unique colors, textures and finishes, combined with state-of-the-art features and design, make Modern Precious Metals a line of window fashions that redefine aluminum blinds.

Modern Precious Metals are available in three different designs; Lightlines®, Décor®, and Celebrity®, and three different slat sizes; 1/2", 1" and 2".

All our designs come in more colors than you can imagine, and some designs also feature exciting new textures and finishes, like Matte and Opalescence. Or you can choose from many other popular textures and finishes like, Softweave®, Duotones, Hammereds, Metallics, and Pearls. There's a perfect color, texture and finish for every window in any room of your home.

ALUMINUM BLINDS

REDESIGNED.

Modern Precious Metals add something exciting and different to any room. You can make a room more whimsical, elegant, cozy, restful, inviting, sophisticated or serene, just by finding the perfect color, texture and design of Modern Precious Metals.

Modern Precious Metals offer the best way to control and angle the light in your room — resulting in the perfect mood for any room in the house.

Modern Precious Metals is a wonderful collection of colors and finishes that is also designed for the young-at-heart! Look for colorful classics to brighten up your child's favorite room. And Modern Precious Metals are Kid-proof™. The bounce back slats are constructed of a proprietary spring-tempered metal that retains its shape under the most trying of circumstances.

ALUMINUM BLINDS

REDECORATED.

Modern Precious Metals have more state-of-the-art features than any other aluminum blind. All were constructed to make Modern Precious Metals easier to use, install, and enjoy. For maximum light control and privacy, our de-Light™ feature* hides the cord holes, giving you a more beautiful look.

Our PowerTilt™ feature* makes opening and closing these blinds a breeze. Just one touch of a button on our wireless remote and you can easily adjust the blinds to control the light or create a mood in any room. You can operate three individual blinds or three groups of blinds from 50' away and you can even set an optional, automatic timer to change the blinds when you're away. And our revolutionary LiteRise® cordless system* puts all the controls at your fingertips. You're able to raise and lower your blinds by simply lifting or lowering the bottom rail, thereby eliminating the lift cord. Our LiteRise cordless system offers a cleaner look, safer environment, and is so easy to operate.

* Not available on all models.

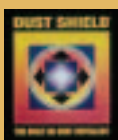

ALUMINUM BLINDS

RECONSTRUCTED.

All Modern Precious Metals
aluminum blinds have extra
features for added comfort
and peace of mind:

Built-in valances and concealed mountings,
for superior style and beauty.

This special anti-static treatment
helps prevent dust build-up on slats.

Of course, our products are
Kid-proof.™ The spring-tempered slats keep
their shape, even with rough handling.

Limited Lifetime Warranty lets you know
that our products are backed by the best
warranty, from a brand name to trust.
